University of Pennsylvania Press, United States, 2014. Hardback. Book Condition: New. 231 x 81 mm. Language: English . Brand New Book. Behind the scenes of New York City's Great White Way, virtuosos of stagecraft have built the scenery, costumes, lights, and other components of theatrical productions for more than a hundred years. But like a good magician who refuses to reveal secrets, they have left few clues about their work. Blue-Collar Broadway recovers the history of those people and the neighborhood in which their undersung labor occurred. Timothy R. White begins his history of the theater industry with the dispersed pre-Broadway era, when components such as costumes, lights, and scenery were built and stored nationwide. Subsequently, the majority of backstage operations and storage were consolidated in New York City during what is now known as the golden age of musical theater. Toward the latter half of the twentieth century, decentralization and deindustrialization brought the emergence of nationally distributed regional theaters and performing arts centers. The resulting collapse of New York's theater craft economy rocked the theater district, leaving abandoned buildings and criminal activity in place of studios and workshops. But new technologies ushered in a new age of tourism and business for the area. The Broadway we know today is a global destination and a glittering showroom for vetted products. Featuring case studies of iconic productions such as *Oklahoma!* (1943) and *Evita* (1979), and an exploration of the craftwork of radio, television, and film production around Times Square, Blue-Collar Broadway tells a rich story of the history of craft and industry in American theater nationwide. In addition, White examines the role of theater in urban deindustrialization and in the revival of downtowns throughout the Sunbelt.
