American Psychiatric Publishing. Paperback. Book Condition: new. BRAND NEW, Resident's Guide to Clinical Psychiatry, Lauren B. Marangell, The resident's job is as challenging as it is critical to patient care, and perhaps no specialty is as daunting to the beginning clinician as psychiatry. This book is designed to provide the tools residents need to quickly assess and competently treat patients with psychiatric illnesses and those with secondary psychiatric symptoms. Differential diagnosis is made easier with the inclusion of diagnostic evaluation checklists and DSM-IV-TR criteria, and treatment interventions are described in detail, with accompanying drug dosage tables and comparison charts. The book begins -- just as the doctor-patient interaction commences -- with the assessment interview. Much of the material is presented using bullet points for quick recognition to accommodate busy residents.\* In addition to chapters on central topics such as mood disorders and dementia, chapters on consultation-liaison psychiatry, emergency psychiatry, child and adolescent psychiatry, and electroconvulsive therapy and device-based treatments are included.\* Welcome features include a comprehensive list of commonly...
