Russell Sage Foundation, United States, 2015. Paperback. Book Condition: New. 224 x 152 mm. Language: English . Brand New Book. Health care spending in the United States today is approaching 20 percent of GDP, yet levels of U.S. population health have been declining for decades relative to other wealthy and even some developing nations. How is it possible that the United States, which spends more than any other nation on health care and insurance, now has a population markedly less healthy than those of many other nations? Sociologist and public health expert James S. House analyzes this paradoxical crisis, offering surprising new explanations for how and why the United States has fallen into this trap. In Beyond Obamacare, House shows that health care reforms, including the Affordable Care Act, cannot resolve this crisis because they do not focus on the underlying causes for the nation's poor health outcomes, which are largely social, economic, environmental, psychological, and behavioral. House demonstrates that the problems of our broken health care and insurance system are interconnected with our large and growing social disparities in education, income, and other conditions of life and work, and calls for a complete reorientation of how we think about health. He concludes that we need to move away from our misguided and almost exclusive focus on biomedical determinants of health, and to place more emphasis on addressing social, economic, and other inequalities. House's review of the evidence suggests that the landmark Affordable Care Act of 2010, and even universal access to health care, are likely to yield only marginal improvements in population health or in reducing health care expenditures. In order to rein in spending and improve population health, we need to refocus health policy from the supply side which makes more and presumably better health care available to more...
