## The Correspondence of Charles Darwin: Volume 6, 1856 1857

By Charles Darwin

Cambridge University Press. Hardcover. Book Condition: New. Hardcover. 720 pages. Dimensions: 9.2in. x 6.5in. x 1.8in. This volume covers the culmination of Darwins work on species. From early in 1856, when he was persuaded that the time had come to publish an account of his heterodox theories through 1857, Darwins letters document the labor involved in composing his big species book, his zest for research, and his unflagging determination to succeed. As always, old friends and more recent acquaintances are drawn into the project. Darwin writes for the first time to Alfred Russel Wallace seeking specimens of Malayan fowls. Joseph Dalton Hooker is his sounding board for botanical speculations and Thomas Henry Huxley soon takes up a similar role in matters of comparative anatomy and embryology. William Bernhard Tegetmeier is the provider of pigeons and poultry and Asa Gray dispatches from Massachusetts invaluable botanical data. Darwin fully exploits his gift for drawing the best from his correspondents and, collectively, their letters provide a remarkable survey of what was--and was not--believed about the nature and origin of species in the middle years of the century. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Hardcover.
